Beautiful & Practical

We have a variety of distinctive door ranges and decorative glass ranges. You can design a door that makes a perfectly personal statement about you and your home. You'll also find lots of little design touches that set our door apart from others on the market and make your home stand out from your neighbours'.

When it comes to practicality, The Quality Collection more than measures up too. It meets and exceeds all the UK's security standards for domestic doors.

And it offers exceptional protection from the elements, something that's reflected in the fact that it's the most thermally efficient door you can buy, helping you to reduce your heating bills and your carbon footprint.

Read on to find out more about what The Quality Collection has to offer – and start to decide which door you'll choose.

Key Features

- ✓ Exceptional Durability
- ✓ Unparalleled Security
- ✓ Low Maintenance
- ✓ Stunning Aesthetics
- ✓ Excellent Weatherproofing
- ✓ The most thermally efficient door on the market

Unparalleled Security

A Quality Collection Premium GRP composite door offers ultimate security thanks to its rigid polymer subframe, high density CFC-free polyurethane foam core, high impact resistant GRP skin and high quality multi-point locks. Achieving PAS 24 2012 Enhanced Security accreditation and Secured by Design endorsement. All glass is triple glazed and laminated for added security.

Exceptional Durability

A Quality Collection Premium GRP composite door's high impact resistant glass reinforced polyester (GRP) skin will maintain its pristine appearance in the face of everyday knocks and scratches and beyond. This durability is reflected in the comprehensive manufacturer's structural and surface warranties that come with every Quality Collection Premium GRP composite door.

Excellent Weatherproofing

A Quality Collection Premium GRP composite door has water resistant polymer composite rails that protect its core. This means it won't suffer from water absorption which can lead to skin delamination and cause functional problems that lesser products have. Your door will keep the weather at bay and stay looking good for longer.
